BDR

IDEAL FOR ALL BREEDERS DURING THE MID-LATE DRY SEASON

BDR is a premium dry season blend formulated specifically for breeder cattle while grazing dry pastures during the dry season period.

Pastures and browse throughout the dry season are typically very low in energy, protein and specific minerals. By supplementing with our breeder blend, it provides breeders with the extra nutrients they require to help maintain body condition, increase fertility and pregnancy rates, improve lactation and ensure pastures are being utilised as effectively as possible.

Example of possible nutrient levels

BDR Nutritional Specifications	
(% as fed basis)	
Urea Equivalent	30.01 %
Crude Protein	2.75 %
Equivalent Crude Protein	86.13 %
Total Crude Protein	88.88 %
Calcium	4.89 %
